The above items are a representative sample of our extensive stock holding of power distribution equipment.

Please contact us for further details of other items and for quotations for complete power system installation, including the latest in current generator technology.

We can also provide testing and certification of our own or other temporary outdoor supplies to 17th edition BS7671 - 2008

We have the facilities to produce bespoke productions for any type of event. Our event managers have many years of experience and can organise all your requirements, from conception to delivery.

Leisurelec also manufactures and supplies custom made power distribution equipment. Please contact us for further information.
